

Our Evangelistic Ministries have extended to many places around the world. In 2015, we were in the city of Jinja where we conducted Camp Meeting. We also established new relationships with many orphans; some of them we are still supporting in various ways.

The Tuckley twins integrated with the local “Ladies in Blue Group” as they ministered in songs.

Baptismal Candidates

These are some of the baptismal candidates including a young lady whose mother died two years before and her father had just died a few months ago. She was left desperate and destitute until we met her. We were able to help her finish her studies and now she is working as a Human’s Rights Lawyer.

At the end of Camp Meeting we arranged a food distribution for the less fortunate in remote villages. There were people from all over the villages who welcomed our kind gestures.

We were able to make a contribution of £400.00 to this lady who takes care of abandoned children, for her to be able to relocate a more convenient place.. Subsequently we make monetary funds available to assist her with the children.

The government have offered her land but she must raise 2 million shillings which is about £400.00 for the title deeds

She is one of many with little or no income who look after orphans in their own homes

Mama Bena's wall in the corner of her house where her bed is was washed away in a recent rain storm, she has five children
